

Exam date and time: June 3rd, 2026. The time schedule should become available in the last week of the semester. You can find it at <https://eksamensplan.dtu.dk/>.

Exam place: Usually takes place at DTU Campus, exact location will be made public together with time at <https://eksamensplan.dtu.dk/>.

Requirements for taking the exam: You must have passed the mandatory group project. You can see if you passed on DTU Learn under *Assignments* (look for your group and see *Feedback*).

Exam type: 3 hours written. The exam will use DTU's online exam platform Digital Exam (DE), see <http://eksamen.dtu.dk>. You have to bring a device that can access this website and is suitable for taking the exam (keyboard is strongly recommended!) Take the test exam during week 12 of the semester, to test if your device is suitable.

Exam aids and materials: All aids and materials are permitted during the exam. This includes a laptop, tablet, or similar, but no mobile phone! You may bring any written material, such as your notes, the lecture slides, or the book.

Important notes:

- Generative AI (such as ChatGPT, Claude) of any kind is strictly prohibited, including local LLMs.
- There is no internet connection, you are not allowed to access the internet. Download material you need during the exam.
- Setting up electronic to communicate with other, both inside and outside the room is not allowed.
- You have to bring a laptop / tablet to take this exam, as it is digital!

Exam preparation: The course on DTU Learn will provide you with material to prepare for the exam. In addition, you should also prepare how to take a digital exam. You have an opportunity to do so in week 12 of the semester. You must read the documents about digital exams and IT support at DTU before that (see next point). See `exam-format.pdf` for additional information about the files and documents used in the exam.

DTU exam guide: You can find the guidelines for taking exams at DTU at <https://student.dtu.dk/en/eksamen/exam-guides>. Relevant documents for you include:

- *Technical instruction for digital examinations (DE)*. This is a DTU document with **technical instructions for the Digital exam platform** you are going to use, e.g. how to download assignments, save your solutions and hand them in. First part in Danish, second in English.
- *IT support before and during the exam - on campus*. This is a general DTU document about IT-support and how you should prepare your IT equipment before the exam.
- There are also two documents about common IT problems on Windows and on Mac, respective.

During the exam:

- Save regularly! You can do this both on the exam server, and, e.g., on a USB drive for the first part (SQL). Your answers for the second part (multiple choice) are saved automatically, after you change the page (navigate to the next question).
- Do not forget to submit your solutions! One year a student saved their solution on the server but did not submit. Not submitting will result in failing the exam.
- After you submitted you cannot change answers anymore.

General exam rules: Read DTU's general rules for exams at <https://student.dtu.dk/en>.
