

1. All sections that have been covered during the course, i.e., in the textbook “Database System Concepts, **7th edition**” (either full edition or custom DTU edition)
(If you have **6th edition**, then you find the corresponding sections by looking in the reading instructions for each week on DTU Learn.)

Authors: Silberschatz, Korth, Sudarsh

Publisher: McGraw-Hill Education

- Chapter 1 Introduction: sections 1.1-1.5 and relevant parts of 1.10 Summary.
- Chapter 2 Introduction to Relational Model: sections 2.1-2.6, relevant parts of 2.7 Summary.
- Chapter 3 Introduction to SQL: sections 3.1-3.10, except 3.8.4, 3.8.6, 3.8.8.
- Chapter 4 Intermediate SQL: sections
 - 4.1 on Joins,
 - 4.2 (except 4.2.3) on Views,
 - 4.3 on Transactions,
 - 4.4.1-2 & 4.4.5 on Constraints,
 - 4.5.1-3 on Datatypes,
 - 4.6 on Index Definition,
 - 4.7.1-2, 4.7.5-6 on Authorization,
 - relevant parts of 4.8 Summary.
- Chapter 5 Advanced SQL: sections
 - 5.2 (except 5.2.3 and the parts about table functions in 5.2.1) on Functions and Procedures,
 - 5.3 about Triggers,
 - relevant parts of 5.6 Summary.
- Formal Relational Query Languages:
 - Section 2.6, Note 3.1 on page 80 + Note 3.2 on page 97 + Note 4.1 on page 136, all on Relational Algebra.
 - Section 27.2.1-27.2.2 on Domain Calculus. Custom DTU version does not include this, see *Content* → *Week 9* ... → *Slides* → *Ch27_FormalRelationalQueryLanguages* instead
 - Information about Query Optimization on slides.
- Chapter 6 Database Design Using the E-R Model:
 - Sections 6.1-6.7, 6.9, relevant parts of 6.12 Summary.
- Chapter 7 Relational Database Design:
 - Sections 7.1-7.6 (except 7.4.4), 7.8, 7.9, relevant parts of 7.11 Summary. See also reading notes under Week 10 on DTU Learn.
- Chapter 14 and 24 Indexing and Hashing:
 - Sections 4.6, 14.1-14.3 (except 14.3.3-14.3.5), 14.5-14.7(except 14.6.3), 14.11, 24.5.1.

Please remember to consider the book Errata found in the course Content on DTU Learn, in Section “*Other Material: Typo Lists*”.

2. All slides and all exercises and their solutions, as found in the course Content on DTU Learn.
The assignment, as found under “*Assignments*” at DTU Learn (esp. the feedback you got).
